

CYBERSECURITY COLLEGE CREDIT CERTIFICATE

The purpose of this certificate program is to prepare students for employment as a cybersecurity support technician. The program will provide training needed to support professionals in the field of cybersecurity, computer and mobile device forensics to include the seizure, forensic imaging, and analysis and reporting of digital media needed for presentation in criminal or civil courts.

The certificate is upward compatible with the Computer Information Technology, Associate in Science Degree (<https://lssc-public.courseleaf.com/academic-programs/career-technical-education-programs/computer-information-technology-as/>).
