

# LIMITED ACCESS HEALTH PROFESSION PROGRAMS

---

LSSC offers three limited access program health programs. Each program has specific program prerequisites required before admission to the program. Students applying to a limited access program must first apply to the college. When they have met the prerequisites they can complete the limited access health program application only offered at specific times each year. To learn more information about the programs see the program page.

1. Associate in Science in Nursing (ASN)
2. Associate in Science in Respiratory Care
3. Associate in Science in Medical Lab Technology
